International Commission on Detector Dogs (ICODD)

icodd.fiu.edu

ICODD serves as a collaborative forum for experts, organizations, and stakeholders across the globe to advance the science and operational effectiveness of detection canines.

- Support the global standardization of canine detection
- Advance counterterrorism, disaster response, border security, and law enforcement
- Align with a respected, university-led commission committed to evidence-based approaches, scientific integrity, and operational validation of detection dog programs
- Fund research, pilot studies, and interagency collaboration
